

**B**asically, the statistical information on judicial affairs covers the judicial system, types of crimes and offences committed in a year, and number and characteristics of offenders for each type, as well as juvenile delinquency, number of victims of crimes, sentences issued for the convicted, etc. However, because of some problems on the way of compiling or disseminating data, this chapter contains only data on the judicial system, offences, robberies, accidents, as well as drugs seized. Below you will find a brief record on the production of data in these areas.

Because of the importance of data collection on different judicial areas, related statistics were compiled by implementing surveys on marriage in the year 1336, crimes and offences (including crime suspects and the convicted) in the year 1344, and divorce, suicide, and family support (only for Tehran) in the year 1346.

In the month of Tir of the year 1373, to make courts of justice more integrated, the new structure of general courts and revolutionary courts replaced several types of traditional courts and public prosecutor's offices.

### *Introduction*

Data collection on road accidents began in the year 1336 by the Highway Patrol under the supervision of the Police Department, and from the year 1346 through the year 1369 Gendarmerie Highway Police was tasked with this responsibility.

Since the year 1370, when three forces of the Islamic Revolution Committee, Police Department and Gendarmerie were incorporated into one force as the Police of the I.R. of Iran, the data on road accidents (called intra-city accidents) and car crashes in urban areas (called inter-city accidents), have been collected and released by the new organization.

Due to the importance of presenting the statistics on comprehensive control of the drugs and psychedelics in specialized fields including controlling the supply of drugs, legal and judicial measures, decreasing the damages, social supports, primary prevention of addiction and NGOs, a separate part of this chapter is considered for presenting statistics and information on plans and activities of the Drug Control Headquarter.
